

**Clerks report August.**

Upgraded email system to secure email provider Zoho. All Councillors should now have logged in and been given the opportunity to input their own secure password. Various new functions available on the new platform which I hope you will take time to take advantage of.

Upgraded to Cloud storage, again helping with security.

**Bank**

Still waiting for access into the bank account so cheque may need it be issued again this month depending on when I get clearance.

Malcolm has now completed the Cemetery topple test which was rather overdue. There are 32 graves deemed as unsafe. Works on basic repairs to start immediately bringing the site back up to safety requirements. One grave was deemed as very dangerous. As this stone was only fitted 4 ½ years ago I have contacted the contractor Dan Atkinson and arranged immediate repairs to be carried out.

**Actions taken after King George's safety inspection.**

All actions have been taken to comply with report and keep the play areas up to safety standards. One item requires specialist work so a quote will be required for works. Another item requires safety signage, again will provide quotes.

**Toilets at County Bridge.**

NYCC have responded to 6 counts of vandalism at the toilets between July 25<sup>th</sup> July & 6<sup>th</sup> August.

All damaged has been dealt with but the costs are seriously inflating. They have erected a 6ft fence to deter anti-social behaviour behind the building. They are going to put signage up for CCTV as a further deterrent but the costs cannot continue to be sustained. Any suggestions on deterrent's?
